

DAN DRYER CRI CRI 309

Electronic Insect Killer

Electronic
Action range 10-12 m
2-year warranty

CRI CRI 309 is a light and compact insect killer that eliminates mosquitoes and other annoying flying insects functionally and efficiently. The system traps insects with UV-A light for a very rapid disinfection. Grilles have been tested with salty steam. It is extremely easy to clean thanks to a removable drawer.

Application

DAN DRYER CRI CRI 309 electronic insect killer is an efficient system to control insects. Effective within a radius of 10-12 linear meters. For use indoors, or in small sheltered outdoor areas.

Technical data

Type	CRI CRI: 309 Insect killer with hanging chain.
Dimensions	H 315 x W 355 x D 155 mm
Materials	Fire retardant and UV-A rated PC-ABS galvanized metal parts
Power supply	230 VAC, 50 Hz
Insulation class	Class II 
IP-rate	IP X3
Total consumption	45 W
Lamp	UV-A actinic
Lamp life	1500 h
Luminous spectrum	365 nm
Lamp power	2 x 15 W
Net weight	3.8 kg
Gross weight	4.0 kg

Tender text

Free-standing or hanging from the ceiling. Electronic insect killer in ABS and polycarbonate. Corrosion-resistant metal. Net weight: 3.8 kg. H: 315 x W: 355 x D: 155 mm.

References

Suitable in medium-sized areas, e.g., restaurants, retail shops, hotels, offices, garden centres, etc.

Product series

Product No. 308: CRI CRI 308A, 95W
Product No. 368: CRI CRI Moon, 25W

Activation

Insert the plug into the power socket to activate the actinic light. Insects are attracted to the lamps. Grids with 5000 V discharge voltage lightning insects quickly.

Mounting

It is advisable to place the insect killer 1.5-2 meters from the ground and at least 2 meters distance from people.

Important!

Not for outdoor use. Do not use in presence of gas, inflammable or explosive liquids or substances.

Approval

CE, WEEE
