### Application

The Stainless Design product line combines hygiene and durability with classic elegance to suit any commercial bathroom. The products are designed specifically for use in public toilets where low-maintenance is called for, and equipment must be able to withstand rough treatment.

### References

Offices and administration, shopping malls, restaurants, hotels, airports, train stations, sports facilities and public swimming pools, schools, public institutions and cultural centres.

### Standard Color

Brushed stainless steel.  
 Available in all RAL colors.

Container with pump and operating bracket can be replaced if you wish to use the dispenser for either liquid soap or foam soap later.

### Installation

Wall mounting.

### Activation

Manual operation. Press stainless steel dosage lever slightly backwards for dosage. Dosage stops as soon as pressure is released. Soap container with pump and dosage lever may be substituted with alternative internals, so the unit can be used for either liquid soap, disinfectant or foam soap. Access to the internals of the dispenser is only possible with a special key fitting all products of the Stainless Design series.
